An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Moldovanyi on 10/26/05.

The application has been amended as follows:

- a) In claim 2 line 2 delete "metallic element" and insert --- metal ion ---.
- b) In claim 4 line 4 delete "apart from any unavoidable impurities".
- c) In claim 13 line 2 delete "concentrated".
- d) Cancel claims 14,24-27,29-33.
- e) In claim 22 line 2 after "one" insert --- compound ---.

The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest a composition existing at a pH less than 3. The closest prior art, DE 3208609, discloses an etching solution, which is excluded from the instant claims. The prior art does not teach or suggest a composition consisting essentially of instant ingredients useful as an antiviral, antimicrobial, antifungal or a metal plating composition. DE 32 08 609 discloses a composition comprising all of the instant ingredients plus scrap iron, which is excluded from the instant invention by the language "consisting essentially of". If scrape iron were included in the instant composition, the instant composition would be materially effected by the presence of iron and would not

be useful as an antiviral, antimicrobial, antifungal or a metal plating composition. For this reason, the instant claims are allowable.

Telephonic Inquiry

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
